

DO THE MATH.

Dent Wizard adds profitability by subtracting dings, dents, and creases.

Holding on to your at-risk vehicles for 10,000 miles longer than before? That's 10,000 more reasons to have them reconditioned prior to their sale. Reconditioning the exterior, especially on higher-mileage vehicles, can increase purchase price and the speed at which they sell.*

Dent Wizard is the world leader in PDR and has been helping rental agencies maximize profitability for over twenty years by providing innovative reconditioning solutions for your fleet, turnbacks, and vehicles sold out-of-fleet. Call the Wizard today and see how we can work for you.
